PHYSICS

ANSWER BRIEFLY

- 01.**State snell's law.
- 02.**State rayleigh's law of scattering.
- 03.**Differentiate covex and concave lens.
- 04.**What is the power of accomodation of the eye.
- 05.**Why are traffic signals red in colour?

ANSWER IN DETAIL

- 01.**List any five properties of light.
- 02.**Explain the rules for obtaining images formed by a convex lens with the help of ray diagram.
- 03.**Differentiate the eye defects:Myopia and Hypermeteropia.
- 04.**Explain the construction and working of a compund microscope.
